**Independent Auditors' Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance; and Report on Schedule of
Expenditures of Federal Awards Required by the Uniform Guidance**

The Honorable Mayor and City Council
City of Long Beach, California:

Report on Compliance for Each Major Federal Program

We have audited City of Long Beach, California's (the City's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of City's major federal programs for the year ended September 30, 2019. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The City's financial statements include the operations of the Long Beach Transportation Company, the discretely presented component unit, which received \$5,268,610 in federal awards, and is not included in the schedule of expenditures of federal awards for the year ended September 30, 2019. Our audit, described below, did not include the operations of the discretely presented component unit because Long Beach Transportation Company engaged other auditors to perform an audit in accordance with the Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinions on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2019.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated March 31, 2020, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors who audited the financial statements of the Long Beach Public Transportation Company (the Company), as described in our report on the City's financial statements. Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the

schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

CITY OF LONG BEACH, CALIFORNIA

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2019

(1) General

The accompanying schedule of expenditures of federal awards (the Schedule) presents the activity of all federal financial assistance programs of the City of Long Beach, California (the City). All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through to the City by other government agencies, has been included in the accompanying Schedule. The Schedule does not include federal expenditures of \$5,268,610 for the year ended September 30, 2019 of the Long Beach Transportation Company (LBTC), a discretely presented component unit of the City, as LBTC engaged other auditors to perform audits in accordance with the Uniform Guidance. The City's reporting entity is defined in note 1 to the City's basic financial statements.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

(3) Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree in all material respects with the amounts reported in the related federal financial reports.

(4) Community-Based Loan Programs with Continuing Compliance

The City considers loans advanced to eligible participants for the Community Development Block /Grant Entitlement Grants (CDBG) and the Home Investment Partnerships Program (HOME) to have continuing compliance requirements. As such, the amounts reported in the accompanying Schedule for the CDBG and HOME programs include current year disbursements as well as the balance as of the beginning of the year of loans with continuing compliance requirements.

As of September 30, 2019, the balance of loans with continuing compliance requirements for the HOME programs was \$74,378,240.

As of September 30, 2019, the balance of outstanding loans for the CDBG programs was \$3,846,538.

(5) Food Instruments/Vouchers

Food instruments/vouchers expenditures represent the estimated value of the Special Supplemental Nutrition Program for Women, Infants, and Children food instruments as communicated by the State Department of Health Services distributed during the year. The food instruments/vouchers totaled \$11,178,448 but do not represent cash expenditures in the City's basic financial statements for the year ended September 30, 2019.

(6) Prior Year Expenditures

The current year Schedule of Expenditures of Federal Awards includes expenditures from prior fiscal years for the Homeland Security Grants Program CFDA 97.067 in the amount of \$1,128,356.

CITY OF LONG BEACH, CALIFORNIA

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2019

(7) Home Investment Partnerships Program CFDA 14.239

The City Auditor has an open inquiry into the Home Investment Partnerships Program (HOME). The inquiry is to confirm loan funds were used appropriately by a borrower(s)/owner(s) as it relates to loan covenant/regulatory compliance in accordance with program requirements. The HOME program has \$64,699,461 in outstanding loans, and 17% of loans are being reviewed.

(8) Indirect Cost Rate

The City did not elect to use the 10% de minimis indirect cost rate as discussed in the Uniform Guidance Section 200.414. For the sponsored programs where the City claims indirect costs, the City's internal indirect cost rate is used.
